

With Regions LockIt®, choose the control you want to block transactions on your personal Credit Cards, CheckCards, Now Cards and ATM cards.

Types of Transactions	All Transactions Control	ATM Transactions Control	In-Store Purchases Control	Online Purchases Control
In-store purchases	Blocked		Blocked	
Online/ mail order / phone order purchases	Blocked			Blocked
All other purchases	Blocked			
Call Center transfers	Blocked			
ATM cash withdrawals	Blocked	Blocked		
ATM transfers to deposit accounts	Blocked	Blocked		
Non-recurring transactions	Blocked			
Credit card cash advances from an ATM, Regions branch, or another Visa bank	Blocked	Blocked at ATM only		
Credit card cash advances using Access Checks	Blocked			

- Although LockIt should become effective instantly when you lock a control, LockIt will not block transactions processed when standard authorization systems are not used.

- LockIt Controls will not block all transactions on your card. For example, LockIt will not block merchant-identified recurring transactions, transactions processed when standard authorization systems are not used, credits to your account, or overdraft protection advances.
