

## Agricultural Banking

Regions has become the sixth-largest Agricultural bank in the United States by providing the products, terms and expertise farmers need to grow.

Farming has changed a lot in the century and a half since Regions first began making farm loans. But other things haven't. As was true 150 years ago, with Regions you can still count on:

### One person dedicated to you

A relationship manager with special expertise in lending to farms will be dedicated to you. Our Agricultural lenders pride themselves on learning your particular business. So if you ever have a financial question, your relationship manager is your single source for answers.

### Tailored solutions

Your relationship manager has direct access to a team of financing experts, from Capital Markets Lenders to Leasing Specialists. You enjoy the benefits of tailored solutions, built from the most sophisticated, targeted financing instruments available.

### Comprehensive products

While Regions' products can be tailored to your business plan, farmers typically use a standard set of services to cover every financial situation — from managing tax and pricing liability to obtaining equipment and facilities.

Regions Agricultural Banking proudly offers a host of products to meet our valued farmers' growing and changing financial needs.

#### DEPOSITS

You can manage your available cash more efficiently and reduce risks with Regions' transactions accounts and treasury services.

#### COMMODITY PRODUCTION LOANS

Obtain working capital for producing crops and livestock. Tailored solutions include:

- Lines of credit for the timing of expenditures
- Special purpose financing for such things as feeder livestock

#### COMMODITY PRICE PROTECTION LOANS

In conjunction with your broker/advisor, Regions can create finance option strategies to protect you against price fluctuations and assist you with cash flow.

#### TERM FINANCING

This product line allows you to comfortably finance specific operations, including livestock purchases or facility improvements and acquisitions.

#### REAL ESTATE FINANCING

You can also obtain long-term financing for purchasing real estate or expanding your current facilities.

#### LEASING AND EQUIPMENT FINANCING

Regions offers options to help you finance equipment and vehicles to upgrade technology, while retaining all of the warranties and guaranties associated with ownership.

#### PERSONAL ACCOUNTS

Regions also offers services for farm owners and their employees; from checking packages, to investment vehicles, to retirement programs.
