

Healthcare Banking

Regions treats the unique banking needs of healthcare professionals with specialized products, services and expertise.

Healthcare Banking is a specialized area at Regions. We are proud to accommodate the needs of this vital group of banking clients with a broad range of products and services designed with hospitals, medical groups, outpatient and healthcare services providers, psychiatrists and long-term care operators in mind. With Regions' Healthcare Banking, you can count on:

One person dedicated to your organization

All Regions services are delivered to you through one person, your relationship manager, who coordinates with an assigned specialist in Healthcare Banking.

Customized instruments for a special industry

Regions takes the unique needs of healthcare institutions seriously. From specialized facility financing to procurement of capital-intensive equipment, Regions provides the expertise and special banking instruments needed to handle each and every transaction.

Regions Healthcare Banking offers a complete range of services from bond financing to deposit services.

TERM LOANS

Purchase new equipment, vehicles or aircraft, finance leasehold improvements or secure long-term working capital with a Regions fixed- or variable-rate loan featuring a fixed maturity.

REAL ESTATE LOANS

Purchase or refinance facilities or property with one of Regions' fixed- or variable-rate real estate loans.

LINES OF CREDIT

An open-ended line of credit with a variable interest rate provides working capital for equipment, seasonal needs or general purchases.

BOND FINANCING

Gain access to greater cash flow and facility financing through nontraditional bond financing.

TREASURY MANAGEMENT SERVICES

Maximize daily cash flow — such as processing daily co-payments — and protect against fraud.

EMPLOYEE BANKING

- Arrange a valuable package of banking services for your employees
- Provide retirement benefit plans
