

What You Need to Know About Overdrafts and Overdraft Fees

An overdraft occurs when you do not have sufficient available funds in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in the following ways:

1. We have Standard Overdraft Coverage that comes with your account.
2. We offer Regions Overdraft Protection plans, such as a link to a money market account, savings account, line of credit or credit card, which may be less expensive than our Standard Overdraft Coverage. To learn more, ask your Regions banker about these plans or visit www.regions.com/coverage. Customers who have Regions Overdraft Protection may also be covered by Standard Overdraft Coverage in the event linked account funds are exhausted.

This notice explains our Standard Overdraft Coverage.

► What is the Standard Overdraft Coverage that comes with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We will not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday CheckCard transactions

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction.

If we do not authorize and pay an overdraft, your transaction will be declined.

► What fees will I be charged if Regions pays my overdraft?

Under our Standard Overdraft Coverage:

- We will charge you a fee of \$36 each time we pay an overdraft.
- We will charge you a combined total of no more than six (6) paid overdraft item fees and returned item fees per day.

► What if I want Regions to authorize and pay overdrafts on my ATM and everyday CheckCard transactions?
