

Regions CD Check Viewer Installation

To access older CDs/DVDs that may no longer be compatible with current web browser requirements, install Regions CD Check Viewer by following the below outlined steps.

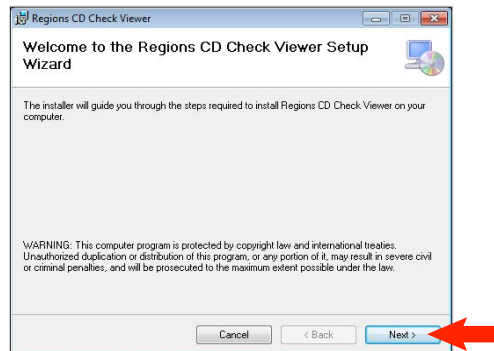

1 Unzip the *RegionsCDCheckViewer.zip* file by double-clicking on the file icon. **Note:** If the file has not been provided by email, it is accessible via the following link:

<https://onlineimagelockbox.regions.com/RegionsCDCheckViewer.zip>

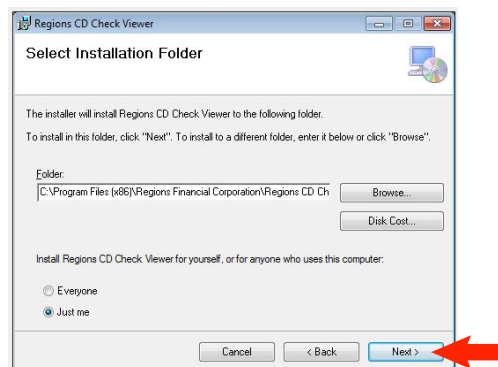

2 Select **setup.exe**.

3 The Setup Wizard will appear. Click **Next** to continue.

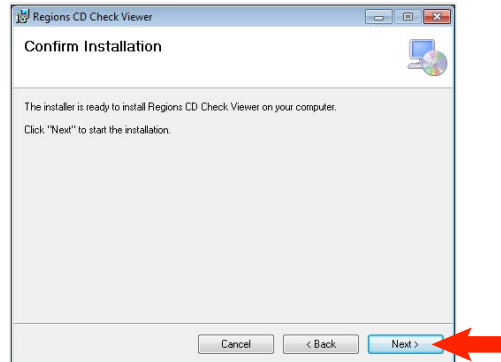

4 Select the installation folder you wish to use and then click **Next**.
